Fund Update

Effective April 30, 2025. Goodwood Extended Termination to December 31, 2025, and Extended Suspension of Redemptions and Suspension of NAV calculations for the Goodwood Capital Fund. See next page for more detailed disclosure.

Fund Features & Attributes

- Provides investors with exposure to one of the more inefficient markets within broader equities
- Provides investors with exposure to a unique investment strategy that can not be replicated by passive or quantitative vehicles
- Provides investors with exposure to high quality businesses which they generally would not get exposure to via benchmark index based strategies
- Provides investors with exposure to a fund that has an idiosyncratic return profile, and low correlation to broader equity markets or macro factors

Fund Investment Objective & Description

This Fund seeks to provide capital appreciation by investing primarily in common stocks of North American micro/small to medium-sized companies over a broad range of industry sectors which are believed to have superior growth potential. Alpha generation will focus on company specific catalyst events such as rapid de-leveraging, dividend recapitalization, capital recycling cycles, business transformations, balance sheet restructuring, spin-offs, etc. The mandate will utilize a “private equity approach to the public markets”. The Fund will aim to replicate the successful Private Equity strategy within the public equity markets by using a bottom-up approach which focuses on undervalued small-mid cap businesses that:

- Have secular growth opportunities or ability to grow market share in a fragmented industry
- Identify small-mid cap companies that can generate excess returns via multiple expansion, margin enhancement, reinvestment at attractive rates of returns and high shareholder yield
- Generate strong ROIC & free cash flow allowing for growth, debt repayment and buybacks
- Are run by strong management teams

Important Information

This communication is for information purposes only and is not, and under no circumstances is it to be construed as, an invitation to make an investment in the Goodwood Capital Fund (the “Fund”) nor does it constitute a public offering to sell the Fund or any other products described herein. It should not be relied upon when evaluating the merits of a potential investment in any funds managed by Goodwood Inc. Applications for the Fund will only be considered on the terms of the Prospectus. The information contained in this material is subject to change without notice and Goodwood Inc. and its affiliates will not be held liable for any inaccuracies or misprints.

***Pursuant to an exemptive relief decision obtained from the Ontario Securities Commission, the Fund has received (a) approval to permit the Fund to suspend the right of its unitholders to request that the Fund redeem their units of the Fund until December 31, 2025 (or such earlier date as the Fund is terminated and liquidated) (the Suspension of Redemptions); (b) an exemption from the requirement for the Fund to calculate its net asset value once a week during the period of suspension (the Suspension of NAV Calculations); and (c) an exemption to permit the Fund to hold illiquid assets making up more than 15% of its net asset value until December 31, 2025 (or such earlier date as the Fund is terminated and liquidated).** Goodwood previously obtained an exemptive relief decision dated January 30, 2025 to permit the Fund to suspend the redemption of units of the Fund and the calculation of the net asset value of the Fund for a period of 90 days until April 30, 2025. Goodwood will reach out to unitholders of the Fund directly with additional information and communication regarding the process for termination. Performance returns are calculated for Goodwood Capital Fund Class A Units. Other Classes may charge different fees and therefore returns between classes may vary. Prior performance of the Goodwood Capital Fund up to and including May 12, 2019 relate to periods of time when the Fund’s lead Portfolio Manager was Peter Puccetti, CFA. Gajan Kulasingam, CFA, CPA, CA became the lead Portfolio Manager of the Fund on May 13, 2019 and for the period between October 4, 2021 and October 23, 2023, Waypoint Investment Partners Inc. was appointed as Sub-Adviser and Gajan Kulasingam was principally responsible for the day-to-day investment advice provided for the Fund until January 24, 2025. **Effective January 25, 2025, Peter Puccetti, CFA, assumed responsibility for the day-to-day investment advice provided for the Fund.** There is no change to the investment objective or strategy of the Goodwood Capital Fund. The returns are net of all management fees and expenses. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return of the Fund are the historical annual compounded total return including changes in unit value and assume that all distributions made by the Fund were reinvested in additional units of the Fund. The rates of return do not include deduction of sales, transfer, redemption, income taxes payable, or other charges (which distributors may charge) that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated. Investment funds can involve significant risks and the value of an investment may go down as well as up. There is no guarantee of trading performance. An investment in the Fund is not intended as a complete investment program and should only be made after consultation with independent investment and tax advisors. Only investors who do not require immediate liquidity of their investment should consider a potential purchase of shares. The risks involved in this type of investment may be greater than those normally associated with other types of investments. Please refer to the prospectus for a further discussion of the risks of investing in the Fund.

Performance data from certain market indices (S&P/TSX Composite TRI, S&P/TSX SmallCap TRI and S&P/TSX Venture Composite Index) are provided in this presentation for information purposes only. A comparison of the Fund’s performance to such market indices is of limited use because the composition of the Fund’s portfolio may contain other securities not found in the market index. As a result, no market indices are directly comparable to the results of the Fund. S&P/TSX Composite Total Return Index is a broad-based market capitalization weighted index of the largest, most widely held stocks traded on the Toronto Stock Exchange. The index includes reinvestment of dividends and capital gains. S&P/TSX SmallCap Total Return Index provides an investable index for the Canadian small cap market and follows the same methodology as the S&P/TSX Composite Index. The index includes reinvestment of dividends and capital gains. S&P/TSX Venture Composite Index is an index indicator for the TSX Venture Exchange, which includes Canadian companies that do not meet the criteria to be listed on the Toronto Stock Exchange.

The Goodwood Capital Fund’s asset selection is driven by bottom-up, company specific approach in seeking under-valued securities for the fund. As such, the composition of the portfolio bears limited correlation to the S&P/TSX Composite TR Index. The portfolio typically holds its core positions for a long period of time (often over 3 years). As such and on purpose, the month-to-month change in asset composition may be limited.
